VIA – E-MAIL

Ms. Colleen Liddell
Ford Livonia Transmission Plant
36200 Plymouth Road
Livonia, Michigan 48150

Dear Ms. Liddell:

SUBJECT: Request to Modify Reporting Frequency and Content within Progress Report
Ford Livonia Transmission Plant, 36200 Plymouth Road, Livonia, Wayne County,
Michigan; Location ID #: 82002970

The Michigan Department of Environment, Great Lakes, and Energy (EGLE), Remediation and Development Division (RRD) has received and reviewed a request from Arcadis of Michigan, LLC on behalf of the Ford Motor Company to modify the frequency of Progress Reports from quarterly to semiannually and to modify the contents within the Progress Report to include the Zero Valent Iron (ZVI) Update Letter required per the approved Interim Response Activity Plan for the Ford Livonia Transmission Plant. Progress reports are required to be submitted under Consent Decree Number 21712372-GAD-RSW filed by EGLE on July 27, 2017, and this request was made in accordance with Paragraph 22.1 of the Consent Decree which allows EGLE to provide written approval of modifications to the schedule of submitting progress reports

EGLE approves this request since groundwater analytical data and data associated with sub-slab depressurization systems installed by Ford at residential homes east of the transmission plant have shown minimal change from quarter to quarter over several years of data collection. Additionally, the information which has been included in the ZVI Update Letter is also provided in Progress Reports making ZVI Update Letter repetitive and unnecessary.

If you have additional questions regarding this matter, please contact Erik Gurshaw, Project Manager, EGLE, RRD, at 586-291-3418 or GurshawE@Michigan.gov, or you may contact me.

Sincerely,

Paul Owens, District Supervisor
Detroit District Office
Remediation and Redevelopment Division
